Selection of Lubricant

Please use water-soluble human body lubricants. In order to ensure product safety, do not use it with silicone-based lubricants. Silicone-based lubricants will corrode silicone products.

CHARGING INSTRUCTION

- ◆ Use a USB cable to directly connect to a computer for charging or charged by a mobile phone charger.
- ◆ The voltage should be in 5V and current should not exceed 300mA while charging.
- ◆ The indicator light flashes while charging.
- ◆ After charging, the indicator light stays on for 5 minutes and then goes out. Do not overcharge for a long time.
- ◆ Unable to use during charging, please unplug the power or wait until fully charged before use.

When the machine cannot be turned on, check whether there is no power and recharge it before using it. If it doesn't work properly after charging, check whether the charging indicator is lit or check whether the charging cable is damaged. When the rotation is weak, please charge the product and use it again. If a program error occurs, it may return to normal after restarting.

CLEANING & STORAGE

- ◆ Please clean the vibrator before & after each use.
- ◆ Wash with warm water and soap, suggest to add detergent specialized for sextoys, disinfectant or 70% alcohol (long term use of alcohol is not suggested because alcohol will corrode the appearance of the product so as to shorten its life).
- ◆ Pat dry with a cotton towel and allow to air dry completely.
- ◆ Please storage in dust-free place and with no other material.
- ◆ Keep it out reach of children.

SAFETY

As an intimate partner of user. It's common duty to use this product safely and healthy for both customers and us. Thus we remind our customers as below:

- ◆ This product is for personal use, please do not share with others for your health.
- ◆ This product has several function modes. Please stop using if feeling discomfort or allergy.
- ◆ For your health, please do not use while you are in illness, period or injury.
- ◆ Suggest to use with lubricant to get better experience. Please stop using if the surface is not smooth or with sharp corners.
